

DUALIT 2 SLICE NEWGEN TOASTER

PRODUCT SPECIFICATIONS

TOAST FOR TWO

The 2 slot NewGen toaster available in a selection of finishes* is Dualit's most compact toaster. It offers all the styling and functionality you would expect from a Dualit toaster, along with the additional features of a defrost setting for frozen bread and the option to toast buns and bagels. The selector control allows you to heat either one or both slots.

SPECIFICATIONS

Hand built in the UK

Every 2 slice NewGen toaster is handbuilt in the UK, with the individual assembler's mark on the base plate.

Environmentally responsible:

Fully repairable or replaceable parts for a toaster that will last a lifetime

Unique patented ProHeat® elements:

Exclusive to Dualit, Proheat elements have a protective armour plated layer covering the filament making them virtually unbreakable

Timeless styling:

First designed in 1946 this award winning classic is a design icon

Versatile:

The extra wide slots (28mm) accommodate large items and a sandwich cage

Hardworking and robust:

Used in commercial kitchens; it's tough, durable and of solid engineering quality

Innovative and functional:

Energy-efficient slot-selector control allows you to only toast what you need

Mechanical timer allows you to control your browning preferences

Manually operated ejector lever lets you check bread whilst toasting

Selector control for toasting buns/bagels (toasting one side and warming the other)

Defrost setting gently warms frozen bread ready for toasting

Adjustable rear foot compensates for uneven surfaces

Technical specification

Capacity: 1 or 2 slices

Output per hour: 65 slices

Loading (kW): 1.2

Dimensions (cm): 26 x 21 x 22

Weight (kg): 3.5

Slot width: 28mm

Materials: Cast aluminium ends, stainless steel body

Elements: Award-winning, patented ProHeat elements

Servicing

It is recommended that this is undertaken by Dualit, an authorised agent or a competent, qualified electrician, using Dualit spare parts.

Additional Features

Built for commercial use

Manually operated ejector lever lets you check bread whilst toasting

High lift mechanism to remove small items easily

Defrost setting gently warms frozen bread ready for toasting

Removable crumb tray for easy cleaning

Note:

The ProHeat® elements are covered in a sheet of mica for even toasting and to protect the wires during use. DO NOT REMOVE - this will damage the toaster. Due to the unique design of the Dualit element it may not be apparent that the elements are 'glowing red.' This is perfectly normal and does not mean your toaster is faulty.

Copper finish / Brass finish

*Due to the paint processes used, a colour variation on Copper finish products is possible and may not be a 100% match.

*Please note: A matching Brass finish Classic kettle is not available.
