After all, the way to everyone's heart is through their stomach. We aren't about fancy features, just beautiful designs that work, created with the freshest produce in mind. Our new Westinghouse fridge range is evolving with today's modern household, combining functionality with style. Simple design that allows your family to create and live with ease. That's why we created FlexSpace. A humble solution for your family's fridge needs, that allows you to configure the interior any way you want.

Showcasing a stylish flat door design, our range is available in dark or natural real stainless steel and white to compliment your kitchen and lifestyle. With consideration for the environment, our new models have been designed to be energy efficient, keeping your costs down and allowing you to care for your surroundings.

FRESHSEAL CRISPERS

superior seals, superior flavour

Whether you're cooking for the family or just yourself, freshness is the king of the kitchen. Our FreshSeal Crispers have advanced seals, and with humidity control you get better flexibility to look after your food the right way. Our seals assist in preventing moisture loss, while the humidity control lets you provide a better environment for fresher tasting food.

LARGE FRENCH DOOR

larger than life

Our large French door range can accommodate the ever-growing family and the appetites that come with it. With dual doors opening to reveal a cavernous interior, our large French door fridge with convertible compartment or drawer and FlexSpace has room for the whole family's hungry tummies.

SLIM FRENCH DOOR

Slim in size, packed with features

Our range of fridges pack a lot into their slim French doors. Designed to fit into a 90cm fridge cavity, these fridges come with far more space than meets the eye. This means more fresh food, big grocery shops and a fridge that is always organised. You'll never run low on space, or compartments. With three or four door configurations you can stack like a pro, fitting more of your favourite produce in the fridge you love.
